

# CentralVUE™ CV10x

Central Monitoring System

Central monitoring & Telemetry  
made simple.

- ✓ Core of Digicare's Eco-System of connected devices
- ✓ Up to 16 patients connected to Telemetry or multiparameter monitors across departments
- ✓ Bi-directional communication to any LifeWindow® series monitor or TeleVUE™ transmitter
- ✓ Analog like diagnostic ECGs using UHD 4K resolution in a 23" or 27" touchscreen display
- ✓ ECG storage and analysis including 48 Hour Full disclosure and event storage
- ✓ Digicare's lifetime technical support
- ✓ Designed and assembled in the USA

# centralVUE™ CV10x

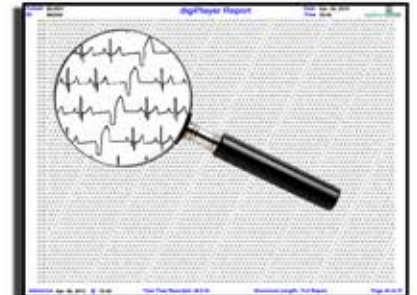

## Central Monitoring System & Telemetry

Up to 48 hours recording of any ECG lead with built-in ECG recorder/player and measurements tool

ECG recorder/player has a measurement tool for making several ECG waveform measurements of time and amplitude

ECG Full Disclosure 1 hour per page printouts up to 48 hours

## Overview

Digicare's central monitoring and telemetry system CentralVUE™ CV10x is a total new design which connects to multiparameter monitors from the LifeWindow® series and telemetry transmitters from the TeleVUE™ series. This system is the core of Digicare's ECO-SYSTEM of interconnected vital-sign acquisition devices with bi-directional communication to and from the CentralVUE™. A combination of state-of-the-art software design, a super friendly and intuitive user interface with the capability to adjust to several screen sizes including UHD (4k Ultra High Definition) resolutions, makes the CentralVUE™ the most modern and capable veterinary central station and telemetry system on the market today. Channel configurations from 1 to 16 channels makes this system versatile enough to adapt to any clinic size.

Sample of 5 lead ECG report with ST segment, arrhythmias and vital signs (TV2x and Multi-parameter monitors only)

## TeleVUE™ Series Transmitters

**TeleVUE™ TV1x** (Ultra-Small Transmitter)  
3 and 5 Lead ECG

**TeleVUE™ TV2x** (Multi-Parameter)  
3 and 5 Lead ECG  
Respiration  
SpO2 Nellcor® OxiMax®  
Temperature

## LifeWindow™ Series Monitors

Multi-Parameter Monitors

## CentralVUE™ Series central station models

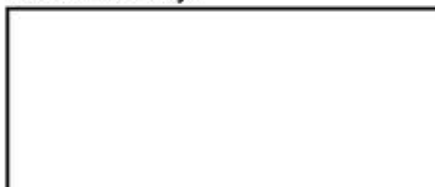

**CentralVUE™ CV10xt** (Telemetry only)

**CentralVUE™ CV10xl** (Multiparameter monitors only)

**CentralVUE™ CV10xtl** (Telemetry & Multi-Parameter Monitors)
